

Dear [Client Name],

Your account is safe. This is just a heads-up, not an alert about anything that's happened to you.

We've noticed fake apps and messages using the Angel One name to mislead people. We want you to know the signs, so you're never caught off guard.

Two fake apps to watch for: "AOLseno" and "AONE" possibly available on Play Store/iOS. They're designed to look like us — they are not us.

Fraudsters may also message you on WhatsApp or Telegram pretending to be Angel One, use fake websites or phone numbers, or even use photos of our team to seem convincing. **None of this is us.**

Just remember these 5 things:

1. Don't download apps or click links outside our official platforms.
2. Never share your OTP, PIN, or password — with anyone, for any reason.
3. Watch out for fake accounts impersonating trading/investment platforms.
4. Think carefully before investing through links or profiles on social media.
5. Do not share personal or financial information online.

If something seems off or suspicious tell us right away:

Call on [18001020](tel:18001020) | Write to us at support@angelone.in

You can also report cybercrime at <https://www.cybercrime.gov.in> or call the national Helpline 1930, or your nearest police station.

At Angel One, we are committed to protecting your investments. Thank you for staying alert with us.

Warm regards,
Team Angel One
