TTM PAT of ₹ 10.5 bn translating into EPS of ₹ 125.7 / share

(1) Interest Income includes interest on margin trading fund, income from lending activities, interest on FD under lien with stock exchanges, interest on delayed payment by customers and Interest on deposits with banks (2) Other includes balance portion of our revenues (3) EBDAT = Net Income - Emp. Cost - Other Opex; EBDAT Margin = EBDAT / Net Income (4) PAT is profit after tax from continuing operations on reported basis (5) EPS is calculated as Profit After Tax from continuing operations / period ending weighted average number of equity shares (6) Prior period figures are restated, especially for bad debts recovered, which formed a part of other income, now being netted off against bad debts from other expenses. The same does not impact our EBDAT and profit after tax.
