Angel One Limited

Commenting on Angel One's performance, Mr. Dinesh Thakkar, Chairman MD said, "FY2022 has been a momentous year where India has achieved numerous milestones in Capital Markets, most notably, Highest-ever Gross Client Addition in a year, rising retail participation leading to record high daily turnover. This demonstrates growing financialisation of savings, and Angel is playing a pivotal role here.

I am happy to share that Angel One commands a 10%+ market share in India's total as well as active demat accounts. This is an outcome of our endeavor to offer our clients with the best experience.

With all industry statistics progressively leaning towards new-age digital businesses, a large pie of incremental clients is being added by top 5 digital brokers. We are clearly experiencing & foreseeing sustained operating leverage benefits of our digital model.

In line with our dividend policy, the Board of Directors have declared a distribution of over 37% of the quarters profit, as a combination of interim and final dividend to the shareholders."

Commenting on the performance, Mr. Narayan Gangadhar, Chief Executive Officer said, "I am thrilled to inform you that Angel One experienced its best-ever quarter in Q4 '22, across our operational and financial metrics. We had the highest gross client addition, best quarterly orders, record-high quarterly revenue and profitability, as we surpassed the 9 million client mark. Our client-centric approach continues to dominate our product offerings that provide superior journeys. A reflection of this is visible from the fact that we ranked 2nd in incremental active clients on NSE during the last couple of months.

Q4 '22 witnessed a few major releases of our Super-App as we put it into advanced beta and validation phase. The first look will be delivered in this quarter. As we ruggedized our back-end services, with the ultimate aim to up client experience, we experienced continuous improvement in our NPS and sustained our top notch Playstore ratings.

Over the last few quarters, on-boarding some of the best tech and digital talent has helped us achieve these enhancements and breakthroughs. This is just a precursor to our overall plan to attain market leadership. These are the assets who create and deliver a superior experience to our clients thus making our business robust, resilient and competitive."
